Most failures with Plants, Bulbs and Seeds are due to soil conditions, unfavorable weather and other causes entirely beyond our control, rendering it impossible to guarantee success; and although we will take all possible care to send only such stock as will under proper conditions give satisfactory results, we do not, and should not be expected to guarantee

stock to grow or guarantee results in any way, and we cannot entertain complaints that are not made promptly after receipt of goods.

ERRORS AND COMPLAINTS

We exercise the utmost care in filling orders, striving to do a little more than we promise, yet in the press of business errors sometimes occur, and when orders are received that are in any way damaged or not satisfactory, we wish to be promptly notified of the fact and will make such an adjustment of your claim as will be satisfactory. When you write us simply give the nature of your complaint, giving a list of the plants damaged and price paid for them and state whether you wish these items replaced or the amount refunded. It is nearly impossible to find time in the busy season to adjust your complaint promptly unless you give us all the information required to do so in your first letter.
